BACKGROUND OF THE PUBLICATION

Sähkö & Tele is published by the Association of Electrical Engineers in Finland, a nation-wide professional association for electrical engineers founded in 1926.

The journal Sähkö & Tele is a technical and scientific professional paper which maintains and develops the level of knowledge among its readers and their professional proficiency in the fields of electrotechnics and electronics.

The Association of Electrical Engineers in Finland arranges lectures, official meetings and visits to factories and undertakings and also both an annual Electricity Day and Tele Day in conjunction with other organizations in the electricity and tele sectors.
